LOCAL AND GENERAL.

Notes by the Way.

Several home papers by the mail announce that Mr. Arnold Reid was affected by sunstroke on his way home, and was dangerously ill.

Dr. Wong Wan Han, a Licentiate of the Hongkong Medical College, has been appointed a Registration Officer for Singapore, vice Dr. J. M. Hardy, resigned.

There were 303 European and 100 Chinese visitors to the City Hall Library, and 107 European and 2,081 Chinese visitors to the Museum during the week ending November 11th.

The *Gazette* notices receipt of a telegram from the Governor General of Indo-China, announcing the rescinding on the 8th Inst. of the decree of the 3rd May, declaring Hongkong infected with plague.Mr. Thos. H. Reid, of the *China Mail*, has been elected by the Council a Fellow of the Institute of Journalists. Mr. Reid has been a Member of the Institute for many years.

Amongst members of Parliament in the new House of Commons interested more or less in the Far East are Mr. W. Keewick, Mr. Joseph Walton, Mr. Yurburg, Mr. E. R. P. Moon, and Mr. Henry Norman.

It is noticed in the *Gazette*, that *pedes* will be run on the Kowloon range from 10 to 11 a.m. daily, between the hours of 8 a.m. and 4 p.m. daily, and all ships, junks and other vessels are warned accordingly.

The Admiralty have decided that in future members of the Royal Navy will provide their own firing parties at funerals. Under this new regulation the Royal Marines, who have hitherto provided such parties, will do so for deceased members of their own class only.

It has been arranged by the Secretary of State for the Colonies, that officers in Colonial service going to England, suffering from tropical ailments, shall be admitted to the Tropical Hospital at rates varying from one to two guineas a week, if their salaries are under £40 a year.

An extract of the meteorological observations made at Hongkong Observatory during October, shows that the highest temperature was 86.6 and the lowest 63.6. There was a total rainfall of 1,615 ins. The highest wind velocity attained was 37 miles per hour, and the average for the month was 17.1 miles.

The following notification appears in the *London Gazette*:-The Hongkong Regiment. -Lieutenant H. S. Moberly, Indian Staff Corps, wing officer, to be quartermaster, vice Captain A. C. J. Campbell, the Duke of Cambridge's Own (Middlesex Regiment), wing officer, who has vacated that appointment.

The Government of Ceylon is taking steps to put an end to the serious inconvenience which has lately been suffered by Colombo shippers as a result of inadequate accommodation at the wharves. The Director of Public Works, Hon. F. A. Cooper, has prepared plans and estimates for an extension of the warehouse accommodation.

Messrs. Lufgans, Eustmann & Co., General Agents of the Great Eastern and Caledonian Gold Mining Co. Ltd., have received a letter from Mr. Best, dated 17th October, in which he says he expects to hand over charge to Mr. Bennecke, new manager, in about a week's time. He would, in the interest of the shareholders, render Mr. Bennecke every possible assistance.

American Enterprise. -According to news from Seoul, an American syndicate, which has successfully completed several Korean undertakings, including the electric tramway, is negotiating with the Korean Government for the construction of water works at Seoul, the sum asked being three million yen. Should the syndicate succeed, it is thought that handsome profits will be realized, and it is understood that the work can be constructed at an outlay of about one-third of the sum proposed. It appears that the contracts for public undertakings in Seoul are monopolized by this American syndicate.

LOCAL AND GENERAL.

Notes by the Way.

One case of plague is notified by telegram at Bremen.

The first private date for the St. Andrew's Ball takes place to-morrow evening, in St. Andrew's Hall, commencing at 6 p.m.

The China Inland Mission at Shanghai has received a telegram from Hankow to say that Dr. J. W. Hewitt, of Yawu, Shanai, arrived there on 8th November.

H.M.S. *Undaunted* and the torpedo boat *destroyers* *Fame* and *Taku* arrived yesterday from Shanghai. The latter vessel is one of the four which were captured from the Chinese at the taking of the Taku Forts. H.M. flagship *Centurion* has returned from the north to Woosung.

Football.

A Football match was played on Sunday, 11th inst., between Junior Football Club and United Football Club, and resulted in a victory for the former by 3 goals to nil.

A Tribute to our Governor.

A London daily newspaper says:-Sir Henry Blake, Governor of Hongkong, has had a busy time of it since the troubles began in China, but he has not enjoyed his work more than otherwise. Lady Blake's sister, the Duchess of St. Albans, had intended paying a visit to the Far East, but the idea has been abandoned in consequence of the disturbances.

A Dishonest Arms Dealer.

An arms dealer at 278 De Vaux Road was charged at the Magistracy to-day, with unlawfully neglecting to enter in his stock book 11 revolvers, 14 pistols, 13 muskets and rifles and 80 cartridges which he had in his possession. Mr. Roscoe appeared for the defendant and admitted the charge. He asked for a small penalty, as the arms omitted to be entered were old and useless rubbish, and as Inspector Cuthbert had told his client on a previous occasion that there was no need to enter them. There was no attempt to conceal them in the shop. Mr. Hazeland imposed the small penalty of \$15.

Robbing the Dead.

Sergeant MacFarland was removing the dead bodies from the collapsed godown near the Harbour Office on Saturday. It was a dirty job and the Sergeant could not get coolies to assist him in the gruesome work. One coolie, however, volunteered his assistance and the Sergeant felt much grateful. In the pockets of one of the dead Chinese was a blood-stained watch, a purse and a small sum of money. These valuables were given to the coolie to carry. The willing coolie, however, while the Sergeant's back was turned, seized the opportunity to bolt, taking, of course, the valuables with him. Chase was given to the patrol and he was captured and returned everything except the purse which he had dropped on the way. To-day, Mr. Hazeland ordered him to suffer two months' imprisonment with hard labour.

The Defence of Hongkong.

After a well-deserved censure for the circulation of wild rumours and alarms regarding the threatened danger in the delta land, the *Times of India* concludes with the consoling sentences:-"At the same time, it has an excellent excuse for its impetuous anxiety. As Bismarck once said, 'If you live next a volcano, you naturally watch for the smoke out of the crater,' and there are distinctly volcanic possibilities among the populations along the West River. That is why Hongkong is always understood to fear that some fine day hordes of Chinese may come swarming over the Kowloon hills and assail the colony. Though such an event is far more improbable than some of the colonists affect to believe, it is pertinent to remark that the Imperial Government has signally failed to give Hongkong the protection it needs on the landward side. It is now more than two years since the new Kowloon territory, embracing the hills dominating the island, was acquired. The measure was adopted solely as a military precaution. The mapmakers dipped their brushes in British red, and coloured the area in accordance with the agreement. But from that day to this, not a single thing has been done to extend the defences of the colony towards the new frontier."

Mails for the Troops.

Although, for the convenience of the troops serving in Northern China under the command of Lieutenant-General Sir Alfred Gaselee, Field Post Offices have been established, at which postage stamps are obtainable, it may often happen that soldiers at the front are not within reach of these offices, and cannot, therefore, prepay their correspondence. In these cases, the Government has decided that soldiers actually serving at the front may be allowed, within reasonable limits, to send letters home free of charge, the postage, which under ordinary circumstances is recoverable from the receiver of the letter, being debited against Army funds. All correspondence from the United Kingdom for the troops in China should be sufficiently prepaid; but in cases in which the postage is debited every assistance will be given to ensure delivery by the postal authorities. The ordinary letters to Hongkong are 10 p. half-ounce; but to Shanghai, and all places beyond, it is 24 p. half-ounce. The concession noted above is not applicable to correspondence from (a) Hongkong.

LOCAL AND GENERAL.

Wreckers Punished.

At the Magistracy to-day, several batches of the heartless characters who spent Saturday in thieving the goods of the unhappy junk and manzan people were brought up and punished. His Worship Mr. Hazeland inflicted punishment of three weeks' imprisonment with hard labour on the adult prisoners, and on two young lads he inflicted a week's imprisonment and in addition twelve strokes with the birch.

Three to One.

Indian Constable 5th was severely assaulted by two men and a woman at Quarry Bay on Saturday. They had an obstruction on the roadway which the Constable asked them to remove. Instead of doing so, however, they took advantage of the fact that they were three to one and went for him. The Constable blew his whistle and a watchman from Tai Kok Refinery came to his assistance. The three aggressors were arrested and to-day they were fined \$10 each.

The Year's Rainfall.

The table below gives the rainfall at the Hongkong Observatory to the end of October, with the means and extremes for 15 years. The year's fall to the end of the month was 67.79 inches against an average of 84.08 inches.

It is an ill Wind, etc.

While the rainstorm accompanying the typhoon on Saturday was doing damage all over the Colony, it was doing good in another direction. The people had just been cautioned that the supply of water was very low, that, in fact, unless the heavy consumption was somewhat decreased there was a likelihood of a water famine during the long dry season, which is always looked for about this time. It seems that Saturday morning's downpour, however, has not only met the need for this warning, but for some time to come, for the storm gave us no less than 80,661,000 gallons of rain, pure and simple. To the stock we already had in reserve, Typhoon Reservoir is now only 1 foot 3 inches below the overtop, Pukolan is 1 foot 8 inches above and Yungchueh is holding over 8,000,000 gallons. The rainfall registered during the past few days is as follows:-Nov. 8 to 9, Observatory 6.6, Pukolan 6.4, Taitam 1.1; Nov. 9 to 10, Observatory 5.6, Pukolan 6.8 and Taitam 11.7; Nov. 10 to 11, Pukolan 4.5, Taitam 12; Nov. 11 to 12, Pukolan 0.5.

Retired.

That fine native officer, Subadar Ashut, of the Hongkong-Singapore Batta, R.G.A., who was stationed at Singapore from the formation of the local company about twenty years ago, till the last relief move to Hongkong, is now placed on retired pay. This officer, who in the Indian army, served during the Afghan campaign of 1880, including the Zalmucht expedition, the Tzaidi expedition of 1881, the Egyptian campaign of 1882, in which he was present at the battles of Tel-el-Kebir, Kassassin and the march on Zagazig, and Upper Burma campaign, 1885-87, Singapore *Free Press*.

Sir Henry Blake and Missionaries.

In the *Nineteenth Century* Sir Henry Blake, Governor of Hong Kong, contributes an article with the title, 'Notes and Impressions from a Tour in China.' It is pleasantly written, and at the same time instructive and suggestive. Speaking of the attitude of the anti-foreign outbreak, Sir Henry relates that he had a personal tea with Baron and Baroness Ketteler the day before he had been posted a few days previously-always a reason for being on the alert-when the German Minister, apparently, any of his colleagues, had any idea of the storm which was about to burst. Sir Henry Blake, with regard to the missionaries in China, speaks candidly. 'This must be remembered when judging of the attitude of the Chinese. It is questionable whether a foreign missionary, or a native, engaged in proselytizing in the South and West of the land would be as safe, without constant armed protection, as the vast majority of missionaries have been in China under ordinary circumstances.'

**VERESTCHAGIN IN DEFENSE
OF CHINA.**

notably, for example, errors other than question

[illegible]

come to me preface to his address to the Japanese, who in thirty years have volunteered the efforts of thousands of young men. Such precipitancy introduces disunion into society, and while the few advanced remain behind, and actual war of understanding exists. The Chinese people live a common life, and it is impossible to lay a common law now by a common hatred against the "civilizers at all hazards."

In respect to the missionaries, it is really embarrassing to speak. The Chinese "converts" are tempted by material advantages, nothing more than love of money enters into their minds. They are required to adhere to this or that denomination; but not to embrace the essence of Christian teaching. Last a Protestant Chinese concert set employment of the native missionaries, and we were told that they will say, *I am one saint, and then you are two!*

The Chinaman is obedient, thrifty, industrious, and not at all fanatical. If he has a vice, it is his love of opium, and his loyalty to Western education. He has been brought down from commercial motives. The Chinaman is orderly, scrupulous in fulfilling his contracts, and industrious. His garden and orchard are object-lessons from the skill shown in utilizing every inch of ground. Every Chinaman speaks a language, though he makes a poor literary language than the average Westerner, and is well accommodating and polite. All our new courtesies are the faintest reflection of its refined urbanity which characterizes the Chinese.

In the matter of cooking, the Chinese yield only to the French, perhaps.

Vereščagin touches upon many other aspects of Chinese life. He considers the educational system excellent in conception but too complete for practice, and admits that it is a failure in its dissemination. He does not admit to be extreme. In no unusual occurrence, he says to pay permanent employees of high grades counterfeits coin. The money is accepted and receipt duly given, for compliance would be useless. The counterfeit money is made by exchanging himself. In conclusion Vereščagin says that so real and profound is Chinese indifference to death—the killing of 50,000 or even 100,000—*that* Zhou would produce absolutely no impression on the Chinese mind, nor any sympathy for concessions, and if the world is to be at peace with them, concert laws be brought about in some other way.—*Literary Digest.*
